Be a participant or a visitor for the ninth annual *Rallye For Pancreatic Cancer*.

Come see a collection of unique automobiles.

Great location for this very exciting car show for the 2026 season.

Rallye For Pancreatic Cancer was created to bring awareness to one of the deadliest cancers that has no early detection for diagnosis. Proceeds are to further support a landmark pancreatic cancer research study for early detection being led by Richard C. Frank, MD, a hematologist/oncologist and the Chief of Clinical Cancer Research at Norwalk Hospital's Whittingham Cancer Center and the Rudy L. Ruggles Biomedical Research Institute in Danbury. He also holds the Nancy J. and Eugene P. Beard Endowed Chair in Cancer Research.

Come show off your car or become a sponsor to help Pancreatic Cancer Research.
